

Architecture in Perspective: A Five Year Retrospective of Award Winning Illustration (Architecture in Perspective: International Competition of Architectural Illustration)

A collection of the best architectural illustrations from noted renderers, as judged by juries of their peers. This unique five-year retrospective of the ASAPs annual competition features outstanding work of such well-known artists as Steve Oles, Tom Challer, and Frank Costantino. Also featured are the Hugh Ferriss Memorial Prize winning drawings selected by juries of eminent architecture and design professionals. The varied subject matter includes sketches, commercial work, elevations, details, unbuilt buildings and fantasy architecture. This book should be of interest to architects, designers, illustrators and their clients.
