Nowadays Many EFL Students are in search of more conversational ways to pick up new concepts in the English language students want classes tailored to their personal needs and interests. The days of passively sitting in a classroom are long gone. Instead they want to be involved in the classroom, interact with their classmates, as well as talk about topics that help them to develop, not only in the English language, but also on a personal level. One of the best ways to do that is by creating truly personalized English classes. For that reason we have created the The Creative English Teacher Lesson Planner workbook.
