

Anatomy Vivas for the Intercollegiate MRCS

Presented in a question-and-answer format, Anatomy Vivas for the Intercollegiate MRCS will help candidates prepare for the anatomy section of the new Intercollegiate MRCS exam and will aid their learning in the format in which they will be tested. The book is unique in that it is based on the new examination. It is divided into the specialty areas and is based on clinical scenarios. Featuring photographs of dissections, detailed diagrams and radiographic images, the book is the most concise and accurate anatomy aid for the MRCS examination. Written by recent candidates, experienced surgical anatomists and authors of other successful MRCS guides, it features explanations presented in a memorable, logical and easy to learn manner, and highlights areas that regularly feature in the exam. Past questions, core topics and recurring themes are discussed in detail, ensuring that candidates are as prepared as possible. It is an indispensable guide to success.
