

The Six Pillars of Expertise: How to become an Instant Authority in your Market

You brand will tell everybody everything they need to know about you; most importantly of all your ethics. If people get to know your brand, what it stands for, and that it can be trusted, they will empathize with it and you'll be halfway there towards establishing yourself as a leader. Gaining people's trust is so, very, very, important - but be warned - it is hard earned! This book will show you how to get there. It will show you how you can harness your potential and make it work for you; but work you must. Everything that is ever worth having takes strength and determination to attain. But you have to start somewhere, and that start is here, and now.
