

The Spirit of Healing: Venture Into the Wilderness to Rediscover the Healing Force

Healing. Sooner or later, everyone needs it. You may have a physical ailment that needs to be healed. Or a relationship may fail and your emotions need to be healed. David Cumes, M.D., has spent a lifetime investigating the nature of healing. In *The Spirit of Healing*, you will join him on his journey of discovery. You learn about the notion of the wounded healer as he shares his stories about his medical training. You'll learn about the nature of trance for the healer and the person to be healed within shamanic cultures. You'll even read how he experimented with powerful herbs along with Shamans in the mountains of Peru, all to become a better healer. This personal experience is mixed with training in a variety of fields. He unites his findings with concepts from the East such as kundalini, prana, and the chakras. He also blends this with the Western mysticism of the Kabalistic Tree of Life. And yes, he does discover the keys to healing. These are the interrelationship between the healer, the patient, the location (certain areas do have healing powers) and the universal force or energy (similar to kundalini) he calls the Field. Cumes picks up on seemingly small ideas that, psychologically, can destroy the healing process. He points out that doctors are now health care providers. He writes, Synonyms given by a thesaurus for the word provider, include: pimp, panderer, runner, agent, hustler, supplier, purveyor, and procurer. This kind of loose and insulting labeling of physicians goes to the very heart of undermining the essence of healing itself. Most of us need the vital healing energy a compassionate healer can give us to help trigger our Inner Healer. This book can be an incredible guide to understanding the healing process. If you are going through such a process now, the information here could help you heal faster. And if you don't need the secrets revealed here now, you will in the future. Prepare for that future by

reading this book.
