

Tiges Big Adventures

The story is about Tige and all his adventures or misadventures. It all depends on how you look at things. The story could only be told by Tige and how he viewed his daily routine. It all started the day Tige was found, a kitten of approximately four months old. How can one kind act of a stranger turn your world upside down? Tige never could have imagined that he would one day have a family of his very own. That his world was about to really expand. Tige has a way with people, he is a friend and at times a clown, then there are the times he is a guardian. Tige has a wonderful personality, some would use the word SPOILED, that is just part of his charm. From teasing the neighbors dogs to leaving all his friends behind when the family moved. Tige always finds something new and interesting each and every day.
