

The Other Shore

Support & guidance for Dhamma in every moment. The Other Shore transcends both time and culture to bring to us the voice of the Buddha. How did he really speak? What words did he use to share his teaching? Written by a former Theravada Buddhist monk this book takes us to the heart of Gotama, before and after his enlightenment, and emphasises a life of love, awareness and sustained effort, until we ourselves reach the other shore. Few men reach the other shore. Almost all run up and down this side of the river. The Dhammapada.
