

## Inside Todays Home

An enriching and informative introduction to residential interior design. More than 750 illustrations of contemporary and classic design present a variety of projects, geographic areas, tastes, styles and housing forms. This text also prepares students for the interior design profession by discussing qualifications, licensing, ethics and career options. Features: \* Focuses on 19th and 20th century developments in the field. \* Applies elements and principles of design to interiors. \* Explains how to design interior living spaces to suit the individual needs of occupants, participants and users. New to this edition: \* Integrates new case studies - real-life examples of how professionals solve design problems. \* Acquaints students with important historical developments in the profession. \* Discusses recent environmental design issues. \* Applies information on sensory perception, ordering systems and spatial illusion to a revised discussion of space. \* Defines technical and mechanical functions used in interior design.
