Human evolution is at a crossroads. We can continue to pursue the currently pervasive Competitive Model or We can consciously change course and pursue a more user-friendly Cooperative Model. The Competitive Model puts Us at the mercy of the military/industrial/corrupt government juggernaut that only thrives when conflict is prevalent and inequality tolerated. It served US well as Neanderthals when successful competition meant survival. But hopefully, We are no longer Neanderthals. The United Earth Ecclesias Cooperative Model, will allow all trustworthy Earth Citizens to have a sonorous voice and a rational choice in creating a better world. This Cooperative Model will promote the continuance and prospering of Our species on Our planet. For the first time in Our history, the World Wide Web may be utilized to unite and democratize all trustworthy Earth Citizens. Think of the United Earth Ecclesia as a Social Network with definitive and positive social and political purposes. The United Earth Ecclesia is not a church, cult, sect, or religion, but a community of Earth Citizens who wish to improve the physical and metaphysical conditions on Our planet.
