

## Leaderships Top 12: Unleash the Greatness Within You

The number 12 represents governmental perfection and is a perfect number for qualities that every great Leader must perfect in order to lead and develop people.

Great Leaders are perpetual learners who fully understand that there are other people depending on our servant leadership to influence them to make the right life decisions at the right time. Leadership's Top 12 is a book that counts down 12 proven qualities developed over a course of over 23 years. They are all great qualities and much needed, but some are more important in building the foundation of leadership that results in successful leading, and are found in you. Leaders are ordinary people who are just like you and me. The only difference is that GREAT LEADERS have a sense of Duty that allows them to rise above their circumstances, problems, situations and even their own self interest, in order to promote a level of influence that is worthy of imitating. If you are ready to LEAD LIFE and put away that testimony of old, then this is a must read.
