

TEFL Vocabulary Note Book: Learning a language

This book is for students who are learning English. The learning of any language depends on learning words and the correct grammatical way to use them in writing and speaking. This note-book is for students to note any English words that they want to add to their vocabulary and ask a native English speaker to write the meaning in the space alongside the word. The native English speaker has a vocabulary of between 7,500 and 15,000 words. The English language is comprised of more than 250,000 words.
