

Paul McCartney: Many Years from Now

During the past year Paul McCartney has been in the public eye more than at any time since the peak of Beatlemania over thirty years ago. His fans have been treated to the best-selling Flaming Pie and Standing Stone albums, a full hour of Paul on Oprah, and this thoughtful and comprehensive biography that brings us closer to the man than ever before. Based on hundreds of hours of exclusive interviews over a period of five years, and with complete access to Paul's own archives, Barry Miles has succeeded in letting Paul tell the story of his life as a Beatle in his own words. It includes Paul's recollection of the genesis of every song that he wrote with John Lennon and the fascinating details about their remarkable collaboration.
