

Rodin: Sculpture and Drawings

Rodin was considered the most famous sculptor of his time, not only in France but throughout Europe, America, and Australia. The expressive liberty and emotional intensity of Rodin's figures had an enormous impact on the culture and the art of the entire twentieth century. This compact book illustrates a significant group of works which represent Rodin's entire artistic career: sculptures, drawings, and watercolors, as well as contemporary photographs. The selection of sculpture is supplemented by outstanding drawings made by Rodin around 1900, at the height of his career. The presentation of these exciting works on paper along with the sculptures gives insight into Rodin's working process. They also reveal a more intense and less dramatic side of his genius. The book includes contributions by Jrg Zutter, Antoinette Le Normand-Romain, Claudie Judrin, Jaynie Anderson, and Paul Paffen.
