

The Art Of Being Alive : Success Through Thought

The Art Of Being Alive : Success Through Thought by Ella Wheeler Wilcox...This great law of cause and effect is called karma. We are all making good or bad karma every hour.....Life means action, from the cradle to the funeral pile.....Waste of thought is the most common waste which exists, and there is no other extravagance so devastating in its results.....Happiness is the state of mind which enables us to be grateful for the boon of life and to rejoice with the rising of each sun that another day has dawned for our use.....Real happiness must rest on the foundation of unselfishness. It must spring from the consciousness of usefulness, and it must be one with Faith. It must forget its own goal in helping others to find theirs. Only this kind of happiness is desirable.....Sincerity and tact are two qualities which make for lasting popularitysincerity in thought and purpose, tact in the application of that virtue.....Prayer is a great force; it puts our highest mental and moral powers in touch with the whole magnificent universe, and with the clouds of witnesses and the hosts of ministering angels who are waiting to do the Fathers bidding on earth; and the Fathers bidding is eternal usefulness to humanity.....These Invisible Helpers are ever ready to help us help ourselves. But they would not answer our prayers for rain to save our gardens if we did not use the water in the reservoir which had been supplied to us. An inexhaustible reservoir lies in every soul born upon earth. The one thing for you to do is to pipe your mental faculties to this reservoir...
