

An English-Chinese Dictionary (Illustration Edition) (Chinese Edition)

This dictionary is designed for college students, working staff and people who are preparing for going abroad. It is divided into several stages according to the CET4, CET6 and postgraduate entrance examination. In order to help learners to quickly achieve a lasting memory, the editors not only make the layout clear but also make great efforts in the contents: we select students, workers and overseas students as the subject matter of the example sentences. We also integrate a large number of Chinese and foreign cultures, proverbs, famous celebrities, etc. to greatly promote the root memory and interest memory. The comics in the text adds the finishing touch and helps learners improve study efficiency.
