The Guns of Navarone

It follows the adventures of a group of saboteurs, sent to the Greek island of Navarone to disable two immense German guns at the height of WW2. If the guns are still in place on a particular date then a fleet of ships carrying evacuees will be massacred. Having set up a high stakes scenario, MacLean then leads the reader masterfully through a great tale of courage, derring-do and all round heroism in the face of seemingly insurmountable odds, including betrayal.
