

The Reencounter: A spiritual journey

A historical romance, the Reencounter takes place in the Venetian Empire of the late Renaissance. Mikhaela is planning her life together with her lifelong partner, Elias, when she falls in love with Alessio, a young officer appointed for temporary work in her city. Soon she has to make an important choice in her life: To follow her heart and start an adventure into an unknown and promising world or to remain in the safety of a mediocre present? Beginning a search into her inner world she discovers her true nature, her other half, her wishes and her forgotten dreams, all of them pointing her to a single direction: The direction that her logic wants to avoid. This book sheds light on the most difficult choices in life: The choices where the heart and the mind disagree.
