

# The Science of Happiness : When we understand the Science of Happiness, we can make our mind more efficient in deriving happiness in life!

It has been known for a while, through the work of Science, that the physical existence, and nature of all living things, including ours, are being influenced, and controlled by the process of Evolution. This book explains a theory about the link between this process and our minds, and how we can maximize our chances of deriving Happiness in Life!
